Work Experience

Internship
Analyze Infotech

Sep 2022-Feb 2023
Aliganj, Lucknow

- Analyze Infotech is seeking a motivated and enthusiastic intern web developer to join our dynamic team for a 6-month internship. The ideal candidate will have a solid foundation in web development and a strong desire to further their skills while contributing to real-world projects.

Video Editor
Krishna Studio

2021/10 – 2022/04
Ankleshwar, India

- I am a skilled video editor with 7 months of professional experience. I have a strong eye for detail and a passion for creating engaging and impactful videos.

Project

Busy-Buy:- <https://buy-busyreactapp.netlify.app>

React Project

- The integration of a login page in the Busy-Buy React web app ensures secure user authentication.
- The web app optimizes the shopping process with an efficient cart management system and a streamlined checkout process.

Photo-folio App:- <https://nileshsable9900.github.io/photo-folio/>

- The app provides an elegant and organized presentation of images, allowing users to showcase their work effectively. Images can be categorized into different albums or projects for easy navigation.
- For content creators, the app supports image uploading and management. Users can easily add new images to their portfolios, categorize them, and edit descriptions.

Dark-Mode Calculator <https://nileshsable9900.github.io/darkmodechangepcalculator.github.io/>

- One of the standout features of the application is the ability to switch between dark and light modes with a simple toggle button.
